

H&S Policy

At Argos and each of the companies that comprise the organization, we have a genuine commitment and a personal and professional conviction to provide safe and healthy conditions for all our employees, contractors and visitors, and promote them among our other stakeholders with a sense of co-responsibility.

Within the framework of respect for and compliance with the law and other applicable requirements in the territories where we have a presence, we guarantee consultation tools and channels for participation and feedback, teaming up and empowering all of us to eliminate hazards and reduce risks through timely identification and assessment.

To ensure excellence and continuous improvement as essential components of our operations, we established "I Promise", our Health and Safety Management System. This system acts as our frame of reference and defines a strategy that drives us to take action towards achieving our organizational goals, including our ambition to achieve zero incidents and zero occupational illnesses. Both, the policy, and the management system are endorsed by the board of directors.
